

An aerial photograph of an industrial facility, likely a power plant or refinery. The image shows a large complex of machinery, including tall towers and various pieces of equipment. In the foreground, there are several large, white, cylindrical structures. To the right, there are stacks of colorful shipping containers in shades of yellow, orange, and red. The facility is surrounded by a paved area and some greenery in the background. The word "ATLAS" is overlaid in large, white, stylized letters across the center of the image.

ATLAS

Investor Presentation

November 2022

Notice on Forward Looking Statements

This presentation contains forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act) concerning Atlas' operations, cash flows, and financial position, including, without limitation, anticipated vessel sales and newbuild vessel deliveries, demand for our power generation solutions and the demobilization and deployment of power generation assets. Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "continue," "expects," "anticipates," "intends," "plans," "believes," "estimates," "projects," "forecasts," "will," "may," "potential," "should" and similar expressions are forward-looking statements. These forward-looking statements represent Atlas' estimates and assumptions only as of the date of this presentation and are not intended to give any assurance as to future results. As a result, you are cautioned not to rely on any forward-looking statements. Forward-looking statements appear in a number of places in this presentation. Although these statements are based upon assumptions Atlas believes to be reasonable based upon available information, they are subject to risks and uncertainties. These risks and uncertainties include, but are not limited to: Atlas' future operating and financial results; Atlas' future growth prospects; Atlas' business strategy and capital allocation plans, and other plans and objectives for future operations; Atlas' primary sources of funds for short, medium and long-term liquidity needs; potential acquisitions, financing arrangements and other investments, and the expected benefits from such transactions; Atlas' financial condition and liquidity, including its ability to borrow and repay funds under its credit facilities, its ability to obtain waivers or secure acceptable replacement charters under the credit facilities, its ability to refinance existing facilities and notes, and to obtain additional financing in the future to fund capital expenditures, acquisitions and other general corporate activities; conditions in the public equity market and the price of Atlas' shares; changes in governmental rules and regulations or actions taken by regulatory authorities, and the effect of governmental regulations on Atlas' business; the financial condition of Seaspan's and APR's customers, lenders and other counterparties and their ability to perform their obligations under their agreements with Seaspan and APR, respectively; the continued ability to meet specified restrictive covenants in Atlas' and its subsidiaries' financing and lease arrangements, notes and preferred shares; any economic downturn in the global financial markets and potential negative effects of any recurrence of such disruptions on the demand for the services of Seaspan's containerhips or APR's mobile power solutions or on our customers' ability to charter our vessels, lease our power generation assets and pay for our services; the length and severity of the COVID-19 pandemic, including as a result of new variants of the virus, and its impact on Atlas' business; a major customer experiencing financial distress, due to the COVID-19 pandemic, bankruptcy or otherwise; global economic and market conditions and shipping industry trends, including charter rates and other factors affecting supply and demand for our containerhips and power generation solutions; disruptions in global credit and financial markets as the result of the COVID-19 pandemic, the Russia-Ukraine conflict or otherwise; Atlas' expectations as to impairments of its vessels and power generation assets, including the timing and amount of potential impairments; the future valuation of Atlas' vessels, power generation assets and goodwill; future time charters and vessel deliveries, including future long-term charters for certain existing vessels; estimated future capital expenditures needed to preserve the operating capacity of Seaspan's containerhip fleet and comply with regulatory standards, as well as Atlas' expectations regarding future dry-docking and operating expenses, including ship operating expense and expenses related to performance under our contracts for the supply of power generation capacity, and general and administrative expenses; availability of crew, number of off-hire days and dry-docking requirements; Seaspan's continued ability to maintain, enter into or renew primarily long-term, fixed-rate time charters for its vessels and leases of our power generation assets; the potential for early termination of long-term time charters and Seaspan's potential inability to enter into, renew or replace long-term time charters; Seaspan's ability to leverage to its advantage its relationships and reputation in the containerhip industry; changes in technology, prices, industry standards, environmental regulation and other factors which could affect Atlas' competitive position, revenues and asset values; disruptions and security threats to our technology systems; taxation of Atlas and of distributions to its shareholders; Atlas' exemption from tax on U.S. source international transportation income; the continued availability of services, equipment and software from subcontractors or third-party suppliers required to provide APR's power generation solutions; APR's ability to protect its intellectual property and defend against possible third-party infringement claims relating to its power generation solutions; our ability to achieve or realize expected benefits of ESG initiatives; potential liability from future litigation; and other factors detailed from time to time in Atlas' periodic reports.

Forward-looking statements in this release are estimates and assumptions reflecting the judgment of senior management and involve known and unknown risks and uncertainties. These forward-looking statements are based upon a number of assumptions and estimates that are inherently subject to significant uncertainties and contingencies, many of which are beyond Atlas' control. Actual results may differ materially from those expressed or implied by such forward-looking statements. Accordingly, these forward-looking statements should be considered in light of various important factors listed above and including, but not limited to, those set forth in "Item 3. Key Information—D. Risk Factors" in Atlas' Annual Report for the year ended December 31, 2021, on Form 20-F filed on March 24, 2022, with the United States Securities and Exchange Commission ("SEC").

Atlas does not intend to revise any forward-looking statements in order to reflect any change in its expectations or events or circumstances that may subsequently arise. Atlas expressly disclaims any obligation to update or revise any of these forward-looking statements, whether because of future events, new information, a change in Atlas' views or expectations, or otherwise. You should carefully review and consider the various disclosures included in Atlas' Annual Report and in Atlas' other filings made with the Securities and Exchange Commission that attempt to advise interested parties of the risks and factors that may affect Atlas' businesses, prospects and results of operations.

This presentation includes various financial measures that are non-GAAP financial measures as defined under the rules of the United States Securities and Exchange Commission ("SEC"). These non-GAAP financial measures, which include FFO, FFO Per Share, Diluted ("FFO Per Share"), Adjusted Earnings, Adjusted Earnings Per Share, Diluted ("Adjusted EPS"), Adjusted EBITDA, Net Debt, Operating Net Debt and Total Borrowings, are intended to provide additional information and are not prepared in accordance with, and should not be considered substitutes for financial measures prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Investors are cautioned that there are material limitations associated with the use of the non-GAAP financial measures as an analytical tool. FFO and FFO Per Share represent net earnings adjusted for depreciation and amortization, gains/losses on sale, unrealized change in fair value of derivative instruments, loss on foreign currency repatriation, change in contingent consideration asset, preferred share dividends accumulated, impairment, loss on debt extinguishment and certain other items that management believes are not representative of its operating performance. FFO and FFO Per Share are useful performance measures because they exclude those items that management believes are not representative of its performance. FFO and FFO Per Share are not defined by GAAP and should not be considered as an alternative to net earnings, earnings per share or any other indicator of the Company's performance required to be reported by GAAP. In addition, these measures may not be comparable to similar measures presented by other companies. Adjusted Earnings and Adjusted EPS represent net earnings adjusted for preferred share dividends accumulated, impairment, loss on debt extinguishment, unrealized change in fair value on derivative instruments and certain other items that management believes are not representative of its ongoing performance. Adjusted Earnings and Adjusted EPS are not defined by GAAP and should not be considered as an alternative to net earnings, net earnings per share or any other indicator of the Company's performance required to be reported by GAAP. In addition, these measures may not be comparable to similar measures presented by other companies and the closest measure is net earnings. Management believes that these metrics are helpful in providing investors with information to assess the ongoing operations of the business. Adjusted EBITDA represents net earnings before interest expense and income, tax expense, depreciation and amortization, impairment, write-down and gains/losses on sale, gains/losses on derivative instruments, loss on foreign currency repatriation, change in contingent consideration asset, loss on debt extinguishment, other expenses and certain other items that management believes are not representative of its operating performance. Adjusted EBITDA provides useful information to investors in assessing the Company's results from operations. Management believes that this measure is useful in assessing performance and highlighting trends on an overall basis. Management also believes that this performance measure can be useful in comparing its results with those of other companies, even though other companies may not calculate this measure in the same way. The GAAP measure most directly comparable to Adjusted EBITDA is net earnings. Adjusted EBITDA is not defined by GAAP and should not be considered as an alternative to net earnings, or any other indicator of the Company's performance required to be reported by GAAP. Total Borrowings represents long-term debt and other financing arrangements, excluding deferred financing fees. Operating Borrowings represents Total Borrowings less amounts related to vessels under construction. Net Debt represents Total Borrowings before debt discount and fair value adjustments, net of cash and cash equivalents and restricted cash. Operating Net Debt represents Net Debt less amounts related to vessels under construction. Net Debt and Total Borrowings provide useful information to investors in assessing the Company's leverage. Management believes these measures are useful in assessing the Company's ability to settle contracted debt payments. Management also believes that these leverage measurements can be useful in comparing the Company's position with those of other companies, even though other companies may not calculate these measures in the same way. The GAAP measure most directly comparable to Net Debt and Total Borrowings is the total of long-term debt and other financing arrangements. Net Debt and Total Borrowings are not defined by GAAP and should not be considered as an alternative to long-term debt and other financing arrangements, or any other indicator of the Company's financial position required to be reported by GAAP.

Focused Diversified Infrastructure company with two best in class platforms focused within Maritime & Energy Solutions

A Focused Diversified Infrastructure Company
Operating Globally

NYSE: ATCO
Market cap of \$4.3bn¹

Seaspan

Containership Leasing Platform

~93% of Adjusted EBITDA²

- ❑ World's largest containership lessor
- ❑ Fleet of 190 vessels³ (~13% market share)⁴
- ❑ **~\$18.3 billion gross contracted cash flow⁵**

APR

Mobile Power Generation Platform

~7% of Adjusted EBITDA²

- ❑ Mobile power solution lessor
- ❑ ~850MW of mobile gas turbines⁶
- ❑ ~470MW of gas & diesel gensets⁶
- ❑ **~\$0.3 billion gross contracted cash flow⁷**

1. Based on market closing price of \$15.28 as of November 3, 2022, with 281.3mn shares outstanding as of November 1, 2022

2. Based on segmented contribution to Adjusted EBITDA for the twelve months trailing September 30, 2022

3. As at September 30, 2022, pro-forma for 59 newbuilds announced between Feb 21 to Sept 21, pro-forma for 2 newbuilds delivered in October 2022

4. Alphaliner Monthly Monitor October 2022 – on a TEU basis, based on fully-delivered Seaspan fleet and fully-delivered leased cellular fleet

5. Seaspan gross contracted cash flow includes \$6.4 billion of lease payments receivable from operating leases, \$1.8 billion of gross minimum lease receivable from finance leases, as well as \$10.2 billion lease payments to be received from 59 undelivered vessels as of September 30, 2022, pro-forma for 2 newbuilds delivered in October 2022

6. As of September 30, 2022

7. APR gross contracted cash flow includes \$0.3 billion of lease payments receivable from operating leases

Fairfax Partnership

- \$1.1bn total investments from Fairfax since 2018
- Fairfax is a leading global investment and insurance company

Accretive Growth

- 2018: \$1.6bn acquisition of Greater China Intermodal Investments (GCI)
- 2019-2021: Addition of 89 high-quality containerships under long-term contract (190 vessel fully-delivered fleet)¹, fully financed on attractive terms
- 2020: Atlas formed as a holding company and asset manager; acquires APR Energy for \$750mn not including indemnifications

~1.2mn TEU
Added To Fleet Since
December 2020

Investment Grade Rating Target

- Objective of achieving IG rating; first IG rating in global containership leasing sector; initial ratings published in 2021
- Diversified capital structure into unsecured institutional credit markets through issuance of \$1.5 billion of unsecured credit in last 12 months while tightening yields

BB+/BB/BB-
Corporate Rating
BBB
Senior Secured Rating

1. As at September 30, 2022, pro-forma for 59 newbuilds announced between Feb 21 to Sept 21, pro forma for 2 newbuilds delivered in October 2022

Market Leader

- ❑ Largest lessor of containerships with 13%¹ market share
- ❑ Largest lessor of mobile turbine power generators with 850 MW capacity

Critical Infrastructure

- ❑ Container shipping acts as the pipeline of the sea, carrying ~90% of global goods by value
- ❑ Fast-track mobile power provides grid stability for renewables and supports natural disaster recovery

Long-Term Contracted Cash Flows

- ❑ \$18.6 billion² of contracted cash flows out to 2042
- ❑ Strong counterparties comprised of the top global container liners and creditworthy utilities

Strong Balance Sheet

- ❑ Progressing toward stated objective of achieving investment grade credit rating
- ❑ Diversified global sources of capital and conservative leverage management

Long-Term Strategic Shareholders

- ❑ Supportive strategic shareholders in Fairfax (~47%) and the Washington Family (~23%), our founding shareholder³

Strong Commitment to Sustainability

- ❑ Track record of leading the industry in environmentally sustainable operations and safety

 4. Does not include \$56.1mn term loan with Atlas

APR deploys mobile power solutions to global utility companies to provide bridging power, emergency relief, grid stability, and other long-term use cases

	Situation	Value Proposition
Temporary Power Solution	 <ul style="list-style-type: none"> 3-5 years to build traditional plant Bureaucratic / financial delays between need for power and build of permanent plant 	<p><u>Bridging Power:</u></p> <ul style="list-style-type: none"> Cost-effective & timely source for temporary need Opportunity to combine with phased long-term solution
	 <ul style="list-style-type: none"> Emergency relief from failing infrastructure and natural disasters Poor planning: filling supply / demand gap 	<p><u>Emergency Fast-Power:</u></p> <ul style="list-style-type: none"> Leader in speed of execution Puerto Rico operational 17 days from contract signing
Long-Term Power Solution	 <ul style="list-style-type: none"> Structural need for backup power (seasonal and intermittent surges in power use) Instability due to increased renewable use 	<p><u>Grid Stability / Peaking Power:</u></p> <ul style="list-style-type: none"> Versatile (many fuel sources), reliable, operates in harsh / remote locations
	 <ul style="list-style-type: none"> Permanent solutions for aging infrastructure & emerging power markets 	<p><u>Permanent Power Solutions:</u></p> <ul style="list-style-type: none"> More efficient than aging infrastructure; scalable solutions

APR is a market leader in mobile, utility scale power solutions

Renewables

Early-stage / development

Large Scale Mobile Power Rental

Lack of competition within space; primary competition is lease vs buy decision or permanent infrastructure

Diesel Generators

Highly competitive; smaller-scale projects and services different customers

Solar, Wind, Batteries

- APR is looking at complementing its turbine fleet with a variety of renewable offerings

aggreko

Specialty Generation

- Niche operators offer capacity for specific use cases
- E.g. portside power (Karpowership)

Traditional Utility / OEM

- Primary competition is permanent infrastructure
- 3-5 years vs <60 days¹ (different use cases)

Regional Rentals / OEM

- Prices driven lower by competition / willingness to accept lower returns
- Purchasing mindset in new markets

National Generalist Rentals

- Able to “bundle” equipment rentals
- Able to compete for specialty rental margins

1. Based on time between contract signature and power generation

Strengthening the APR Team

- Ben Church appointed CEO in August 2021
 - 25-year experience in power generation, utilities, and international energy
- Phillip Lord appointed CFO in March 2021
 - 25-year experience in auditing, finance and energy

Building Upon a Strong Reputation and Entering New Markets

- Secured contracts to utilize 10 gas turbines rated for up to 330MW of generation capacity for the summer peaking protocol across three sites in Mexicali, Baja California, Mexico
 - In APR's third consecutive year, rewarded increased contract for up to 330MW capacity supplying baseload generation in the region
- In early 2022, secured contracts to utilize 8 gas turbines rated for up to 226MW of generation capacity for peaking capacity in Rio De Janeiro
 - This is APR's first entry into the growing Brazil market
 - Successfully extended contract from 12 months to 44 months
- In early 2022, secured contracts with a US counterparty to provide a dry rental of 5 gas turbines for 120 MW
 - This contract is for a minimum of one year and commenced February 2022
- In Q2 2022, secured contract with a Mexico-based counterparty to provide a dry rental of four turbines representing 120 MW for a minimum of four consecutive months

APR Launches New Grid Stability Solution

- In May 2021, APR Energy launched a new Grid Stability Solution for utilities and power providers offering:
 - Critical and turnkey solution for peak season generation requirements
 - Protection from increasingly frequent stresses on critical infrastructure, which trigger power loss
- Secured a contract with California's Imperial Irrigation District ("IID")
 - Utilizes three gas turbines during the 2021 summer months, redeployed in early 2022
 - Serving IID's service territory, which covers 6,471 square miles, including all of Imperial County and parts of Riverside and San Diego counties, and is APR's first US utility customer

In addition to recent issuances of sustainability-linked loans and bonds, Atlas has now published a new Blue Transition Bond Framework, to support funding projects supporting decarbonization initiatives

- ❑ Leverage full life cycle management platform to optimize vessel efficiency
 - ▶ Ship development and technology
 - ▶ Ship operational excellence
 - ▶ Ship recycling
- ❑ Pre-Deployment Site Survey to assess safety, environmental, and impact to protected species risks
- ❑ Signatory of UN Global Compact

- ❑ First sustainability-linked loan and bond by a containership lessor; largest recorded sustainability-linked U.S. private placement (\$500mn)
- ❑ Establishment of Blue Transition Bond Framework
- ❑ Published inaugural ESG report in August 2021
- ❑ Investing in alternative-fueled vessels to advance decarbonization strategy in line with Poseidon Principles and IMO trajectory

- ❑ Diversity and Inclusivity Policy in place
- ❑ Equal opportunity employer
- ❑ Committed to competitive seafarer pay
- ❑ Seafarer safety and wellness programs
- ❑ Community development programs focused on quality and security of life of local areas

ATLAS

- ❑ Strong frameworks supported by Standards of Business Conduct Policy
- ❑ Zero tolerance approach to bribery and active participant in Maritime Anti-Corruption Network
- ❑ Whistleblower Policy and Business Conduct hotline
- ❑ Information security program based on internally recognized frameworks

Appendix

Consistent upgrade of credit quality & disciplined capital allocation targeting stable growth through-cycle

Diligent Management of Leverage

- ❑ Long-term target Debt to Assets of 50-60%

Significant Liquidity

- ❑ **Liquidity of \$1,294mn** as of September 30, 2022¹
- ❑ **Newbuild program fully funded** through additional committed financings

Diversified Capital Sources

- ❑ **\$2.5bn issued into multiple new institutional markets** since Dec-2020; including Nordic bonds, USHY bonds, secured USPP (LifeCo) notes
- ❑ **\$6.9bn of newbuild financing via plethora of markets** in 2021; including Chinese leasing, Japanese operating lease, ECA, and bank

Unencumbered Asset Base Growth

- ❑ Unencumbered asset pool with a net book value of ~\$1.2 billion²
- ❑ Continue to grow unencumbered asset base by transitioning capital structure from secured to unsecured

Disciplined Capital Allocation Policy

- ❑ Long-term lease must be executed before newbuild contract is signed
- ❑ Growth opportunities with strong risk adjusted returns, ensuring cash flow coverage via long-term contracts and maintaining selective customer base of industry leaders

1. Includes cash and cash equivalents and undrawn and available credit facilities (does not include committed newbuild financings)
2. As of September 30, 2022

2. Seaspan gross contracted cash flow includes \$6.4 billion of lease payments receivable from operating leases, \$1.8 billion of gross minimum lease receivable from finance leases, as well as \$10.2 billion lease payments to be received from 59 undelivered vessels as of September 30, 2022, pro-forma for 2 newbuilds delivered in October 2022
3. Includes cash flows expected from signed lease agreements on undelivered vessels as of September 30, 2022, excludes purchase options, extension options, higher lease rate options and profit-sharing

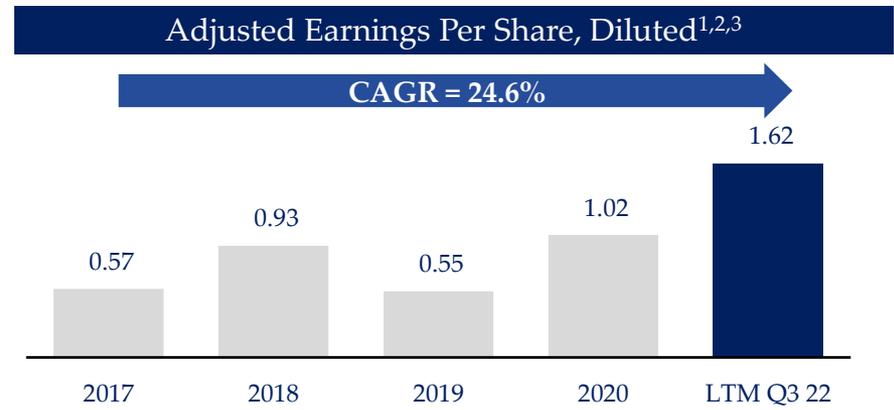

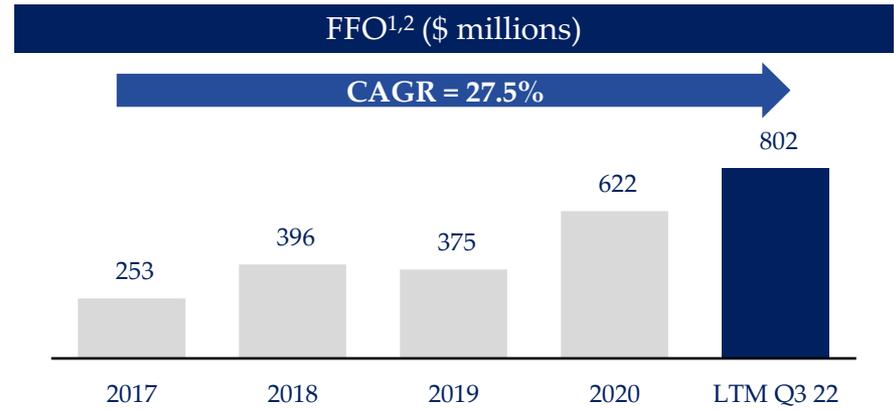

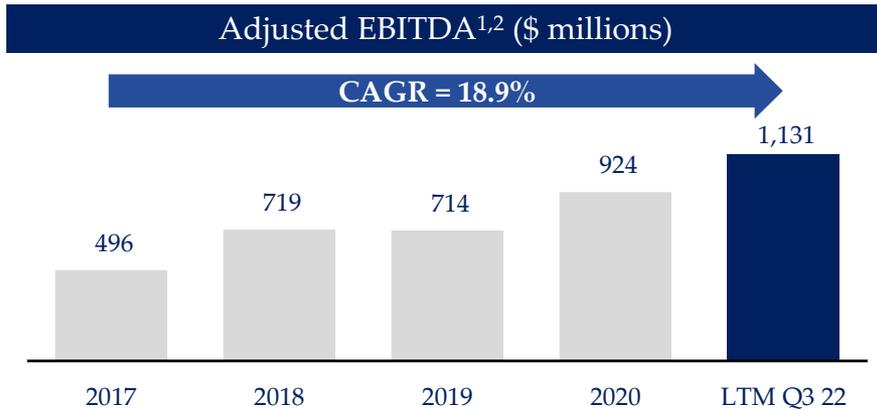

components

4. APR gross contracted cash flow as at September 30, 2021 and 2022 includes \$0.2 billion and \$0.3 billion of lease payments receivable from operating leases, respectively
5. Compared to Q3 2021
6. Includes \$6.7 billion of lease payments receivable from operating leases, \$1.8 billion of gross minimum lease receivable from finance leases, as well as \$10.2 billion lease payments to be received from 59 undelivered vessels as of September 30, 2022, pro-forma for 2 newbuilds delivered in October 2022
7. Liquidity includes cash and cash equivalents and undrawn committed credit facilities, excludes restricted cash and committed amounts related to newbuild vessel financings

5-Year Financial Performance Review

The Atlas foundation is strong, and the global multi-platform model is evidenced by sector-leading businesses driving strong financial results

- ❑ Unique business model unaffected by market volatility such as current supply chain disruptions
- ❑ Delivering double digit compound annual growth rates through industry leading platform

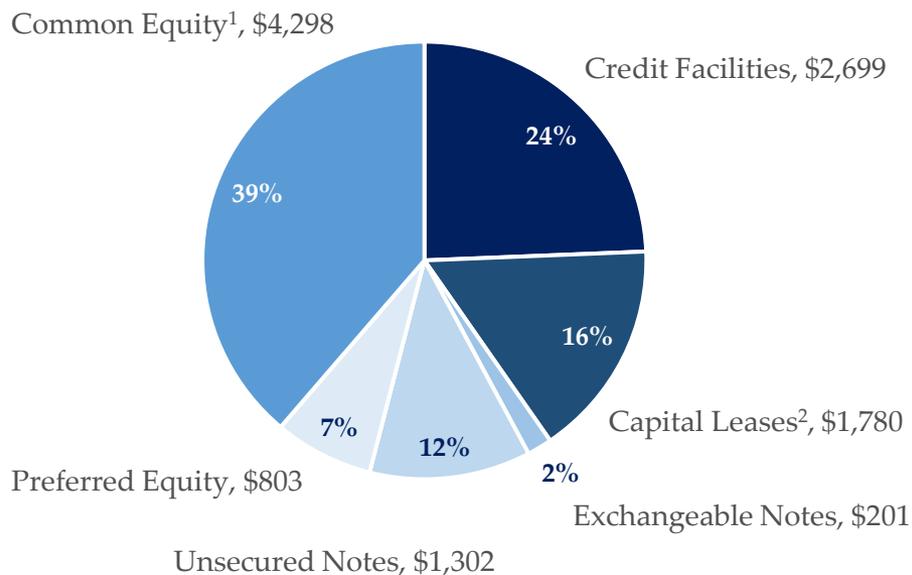

1. See Appendix for reconciliations to the most directly comparable GAAP measure
 2. Excludes cash received/income related to modification of time charters of \$227 million, received in 2019
 3. Prior year comparatives have been recasted to conform with current year presentation

Appendix

Atlas Leadership Team

- ❑ Chairman of Atlas
- ❑ Over 40-year business career, founded three companies, took three companies public and sold MidAmerican Energy Holdings Co. to Berkshire Hathaway in 2000

David Sokol

- ❑ Chief Operating Officer, Seaspan
- ❑ Over 20 years of experience in shipping, logistics and infrastructure, during which he held senior leadership roles and board positions

Torsten Pedersen

- ❑ President and Chief Executive Officer of Atlas Corp
- ❑ Director, president and CEO of Seaspan
- ❑ Over 25 years of international executive experience in banking, leasing, commodities, and transportation
- ❑ Previously CEO of BNP Paribas (China) Ltd.

Bing Chen

- ❑ Chief Commercial Officer, Seaspan
- ❑ Previously served as EVP (Jul-2017), Chief Commercial & Technical Officer (Mar-2018), Chief Operating Officer (Feb-2012)
- ❑ Over 30 years of experience in commercial maritime operations and engineering

Peter Curtis

- ❑ Chief Financial Officer
- ❑ More than 25 years of experience in finance, operations, systems, and accounting primarily within the energy sectors (Maersk Energy, Maersk Oil, BG Group, and Shell)
- ❑ Previously served as CFO for the Abu Dhabi Power Corporation

Graham Talbot

- ❑ Chief Executive Officer, APR Energy
- ❑ Previously served as Managing Director, Engineering & Operations of the AES Corporation, and Chief Operating Officer of ACWA Power in UAE and ENERCON in India
- ❑ 25-year experience in power generation, utilities, and international energy

Ben Church
